### Hendricks Hexagon

The **Christy Hendricks Hexagon** is an excellent option to provide families interested in cremation. The benefits of our **Hendricks Hexagon** allows you to create places for inurnment from beautiful cemetery features to sites previously thought unusable.

Christy Niches are constructed with quality steel reinforced concrete for internal strength.

Fiberlyte™ a patented high impact resistant material lines each niche to provide protection from tampering when sealed with the Inner Security Shutter. The Fiberlyte™ Inner Shutter and Liner protect the cremated remains from the elements and provide an internal aesthetic value for families wishing to witness the inurnment.

### Features:

- Its' design and solid construction automatically attracts those seeking a special place for inurnment
- Most efficient use of cemetery land
- No costly on-site construction or maintenance
- Unique pre-assembled design
- Available in four box styles and many popular configurations

The cremated remains are protected from the elements and provide an internal aesthetic value for families wishing to witness the internment.

The ease of installation and cost effectiveness of our **Hendricks Hexagon** provides you to an inurnment option that easily pays for itself and generates revenues for future projects.

At Christy we take great pride in the quality and beauty of our Niche products. Our commitment to excellent customer service is second to none.
